ROTEM Decision Support

Creative Commons Attribution-NonCommercial-NoDerivatives 4.0 International (CC BY-NC-ND 4.0)

ROTEM Decision Support © 2026 by **Tarek Tantawy, MD** is licensed under **Creative Commons Attribution-NonCommercial-NoDerivatives 4.0 International (CC BY-NC-ND 4.0)**.

Full legal text: <https://creativecommons.org/licenses/by-nc-nd/4.0/legalcode>

Human-readable summary: <https://creativecommons.org/licenses/by-nc-nd/4.0/>

1. What you may do under this license

- **Share** — copy and redistribute the material in any medium or format. You can email it to colleagues, deposit it in an educational repository, or post a link to it on your hospital's intranet.
- **Use it for personal study, clinical reference, and teaching** — including in resident teaching sessions, simulation training, departmental presentations, and individual bedside reference.

The licensor cannot revoke these freedoms as long as you follow the license terms below.

2. Conditions you must follow

2.1 Attribution (BY)

You must give appropriate credit, provide a link to the license, and indicate if changes were made. You may do so in any reasonable manner, but not in any way that suggests the licensor endorses you or your use.

Required attribution format:

"ROTEM Decision Support" by Tarek Tantawy, MD, WhiteCodeMed.com
is licensed under CC BY-NC-ND 4.0.
<https://creativecommons.org/licenses/by-nc-nd/4.0/>

2.2 NonCommercial (NC)

You may not use the material for **commercial purposes**. "Commercial" includes (but is not limited to):

- Sale or licensing of the tool, or any derivative of it, for money
- Incorporation into a commercial product, service, or platform
- Use as a paid clinical decision-support module or feature
- Use in advertising, marketing, or promotional material for commercial gain

Use in routine clinical care at a non-profit teaching hospital, for academic teaching, or for personal study is **not** considered commercial use, and is permitted.

2.3 NoDerivatives (ND)

If you remix, transform, or build upon the material, **you may not distribute the modified material**. Modifications you make for your own use only (e.g. adapting reference ranges to your local laboratory values, translating field labels, adjusting the visual style for your department) are permitted, but the modified version must not be redistributed.

If you would like to distribute a modified version (for example, an adaptation for a paediatric service, a translation into Arabic, or an integration with your hospital's information system), contact the author for explicit written permission. The author may grant a separate license for such uses on a case-by-case basis.

2.4 No additional restrictions

You may not apply legal terms or technological measures that legally restrict others from doing anything the license permits.

3. Notices

- You do not have to comply with the license for elements of the material in the public domain or where your use is permitted by an applicable exception or limitation.
- No warranties are given. The license may not give you all of the permissions necessary for your intended use. For example, other rights such as publicity, privacy, or moral rights may limit how you use the material.

4. Disclaimer (educational tool, not medical advice)

ROTEM Decision Support is provided for **educational purposes only**. It is not a medical device, is not certified by any regulatory authority (SFDA, FDA, CE, or otherwise), and must not be used as the sole basis for any clinical decision. Final clinical decisions and responsibility for patient care rest with the treating physician — typically the intensivist or anesthesiologist managing the case. The author makes no warranty, express or implied, regarding the accuracy, completeness, or fitness for any particular clinical purpose, and disclaims all liability for any consequences arising from use of this tool.

5. Contact

For permissions beyond the scope of this license, attribution questions, or requests to use the tool commercially or in a modified form, contact:
